- Communicate and clearly present ideas and solutions to customers, team members, and partners

PROFESSIONAL WORK EXPERIENCE

- Plan and accomplish goals assigned as part of often diverse and distributed teams in a collaborative manner, regardless of assigned role or reporting structure
- Capture and apply the knowledge, experiences, and best practices that are acquired from each engagement to strengthen skill sets

Project experience includes:

Local projects implemented/supported:

- Barloworld Equipment Ltd (Consolidation and Reporting OneStream Implementation)
- AB InBev Africa (Oracle FCCS Supports)

Manager: Risk Advisory, Technology Risk Partners (based in London, UK), April 2021 – October 2021

The role included 40% of Business Development/Sales and 60% of Deliverables. On the deliverables, the position included advising in various governance, risk, and compliance programs. These may include Enterprise or Operational Risk Management, Regulatory Compliance, Cybersecurity, Internal Control, Internal Audit, Business Continuity, or other similar GRC programs. The role also played a critical part in analyzing business processes, gathering requirements, designing solutions, understanding complex relationships, managing stakeholder expectations, communicating with customers, determining issues, and solving problems. Part of the role was to develop and apply strategies that help clients leverage enterprise technologies, mitigate risks, streamline processes, and find operational inefficiencies. As a manager, I would have to analyze complex ideas or proposals and build a range of meaningful recommendations, and workflow processes. On the Business Development/Sales, I provide support in sales & business development activities (SaaS, and other cloud products) and finding leads; lead TRP's business in Africa; documentation of projects and products for clients to understand them; onboarding clients; liaise with key stakeholders; ensuring that TRP services become a success; perform system configuration and post-go-live support.

Project experience includes: Local projects implemented/supported: - MTN Group - implementation of AFC, AAC, FRC and Audit Policy modules International projects implemented/supported: - Milaha (Location: Doha, Qatar) - implementation of AFC, AAC, FRC - DP World (Location: Dubai, UAE) – implementation of AFC, AAC, FRC

Enterprise Performance Management Consultant, Oracle, February 2020 – February 2021

I was responsible for implementing the best business practice processes in the organization's budgeting system, policies, and processes and working with department/region budget owners to create the best business practice models for monitoring operating budgets. I was accountable for understanding the customers' business needs and preparing and providing financial and narrative reports and analyses to programs according to the best business practice. EPM modules I was exposed to include Oracle Financial Consolidation & Close (FCCS), and Oracle Planning & Budgeting (PBCS) on-prem and cloud.

Project experience includes: Local projects implemented/supported: - AB InBev Africa (Oracle FCCS Implementation)

PROFESSIONAL WORK EXPERIENCE

Brand Sales Promoter, VIP Liquors (Pty) Ltd., March 2017 - December 2017

During my university studies, I was offered a part-time opportunity as a Sales and Marketing Promoter at VIP Liquors (Pty) Ltd. My typical daily work assignments included selling and promoting Ice Tropez (one of their liquor brands), attending weekly client and sponsor meetings, assisting and preparing presentations for weekly and divisional activities and product launches, assisting with implementation plans, personal visits and meetings to key stakeholders, and liaising with Regional Sales Manager with respect to the effective exploitation of various business opportunities.
